ABOUT VERTICAL SPICE

page 1

*OUR MISSION IS TO PROVIDE THE MANY HOME KITCHEN USERS
A STURDY PRODUCT TO ORGANIZE, VISUALIZE AND EASILY
ACCESS BOTH THEIR EVERYDAY AND OCCASIONALLY USED
FLAVORS OF LIFE.*

Vertical Spice was established in 2012 to share our unique, patented, kitchen cabinet storage innovations with other home cooks. We have assembled over 99,000 units in our Minnesota shop and shipped them to all points in the US and Canada and all points of the world, including Asia, Europe and Australia/New Zealand.

Our patented design (US Patent Number 9,282,821 B2) the "Spice Rack Drawer" and "Storage Solution Drawer" give you easy access to all your spices and flavors in a compact space. No longer tip over, spin-off, duplicate or lose containers in our cabinet.

Flex-Sides – Woven polyester over elastic core sets us apart from everyone. The flexible sides give you the most compact storage and full, easy access to all your containers.

We design, build and sell all our units. We maintain an inventory of products and ship by the next business day via UPS Ground or the US Postal Service.

The **materials** in our designs are quality and meant to last. The **Cream** units are made with PolyTuf HDPE, strong, tough and easy to clean. The **Maple** for our top end products is sourced and prepared in Northern Minnesota, left natural with a clear varnish.

- We offer a range of products -- From simple spice rack drawers... to custom organization solutions
- Depths available: 10.6", 13.8" 18" and 22.1", stand alone or side-by-side
- Every unit has full extension drawers with smooth ball bearing slides
- Simple Do-It-Yourself install with just a screwdriver

THE KITCHEN APPLIANCE YOU WILL USE EVERYDAY

MOST SPICES IN THE SMALLEST SPACE

- We offer unique, compact storage drawers that hold a large number of spices and containers in a small area.
- Individual drawers pull-out the flavors to you, no extra handling required to reach that back row container.

**TRANSFORM CABINET STORAGE - NO MORE CLUTTER**

- Organize spices, herbs and all containers
- Maximize and Gain cabinet space with compact design
- Spend your time creating; not hunting for ingredients
- Flex-Sides and full-extension slides revolutionize cabinet storage

THE MESS-BUSTER YOU'VE BEEN SEARCHING FOR...

- Clear fronts provide visibility of your jars, bottles and cans
- Keep spices in their original containers
- No more step stool, if you can reach the front of the cabinet our drawers will slide everything out to you
- Solid, lasting construction and materials

WE ARE HIGHLY RATED!!!

We have MANY repeat customers. Since 2012 we have sold our units through our website and as an Amazon Seller. We are **4.9 out of 5 Star** rated on Facebook and Amazon with many hundreds of reviews. We have also received hundreds of excellent testimonials through our website

**SUPER EASY INSTALLATION**

- If you can turn a Philips screwdriver, you can install yourself
- Drawers are removable from base if access is needed

WHAT CABINET / SPACE WILL YOU ORGANIZE?

- Our units mount through the base and can be attached to any fixed shelf
- Our units reach to the back of the cabinet or pantry and bring the containers out to you.
- Every unit has a 1, 2 or 3 drawers that slide out
- Every drawer has Flex-Sides to keep the containers in place, yet allow easy on / off access to every jar and container

WHAT AND HOW MANY SPICE JARS AND CONTAINERS

- The product charts show each unit's capacity in Standard Spice jars
- Look at your current collection of spice and flavors, then look at our units capacity to see which and how many units solve your custom need

WHAT WILL YOU BE ORGANIZING?

How many standard Spice Jars?
How many large spice containers? How wide? How Tall?

Oils and Vinegars?
Sauces and Canned Goods?
Liquor Cabinet?

Vitamins?
Cake and Cookie decorating supplies?
Cosmetics?

SPICE JAR SIZES:

Standard Size = Up to 5" tall x Up to 2" diameter (x11 units fit 5 per drawer)

Half-Size = (about) 2 3/8" tall x Up to 2" diameter (stack-able)

McCormick = (about) 4 7/16" tall x 1 3/4" diameter (x11 units fit 5 per drawer)

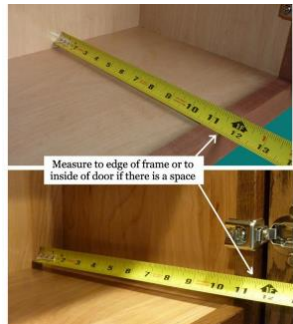

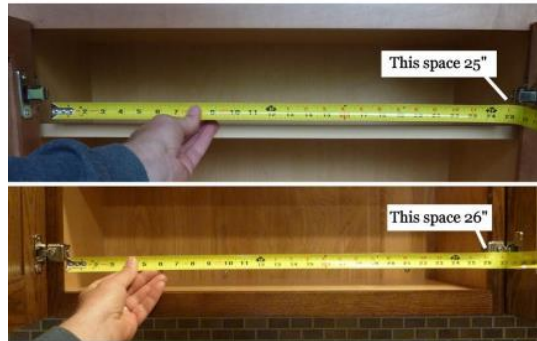

PENZEY = (about) 4 1/4" tall x 2" diameter (x11 units fit 5 per drawer)

**WHAT TO MEASURE**

Vertical Spice Units are drawers sliding in and out. They require no obstacles in the way (hinge, frame, posts). Think of the space needed as the largest box you can slide straight in and out of the cabinet.

WIDTH (NARROWEST SPACE)

Measure the narrowest width, **between your hinges**, of the cabinet. If you only have one door or a center frame, measure from the hinge to the frame. Our units have drawers that will extend out of your cabinet. You will use the width dimension to determine which and how many units will fit side-by-side in your space.

**DEPTH**

Measure from the **back of the cabinet to inside the closed door**.

Back of the cabinet. Some cabinets have a block of wood or there may be electrical wiring, this will affect fit.

Closed Door. Doors vary greatly, some will sit away from the frame and some doors will have inserts extending back into the cabinet.

Cabinet frame or "Front Lip" - Our units have a cut-out and are designed to fit over the frame.

Our x11 (10.6" deep) units need a minimum of 10.6" of space and our x14 (13.8" deep) units require 13.8" of space.

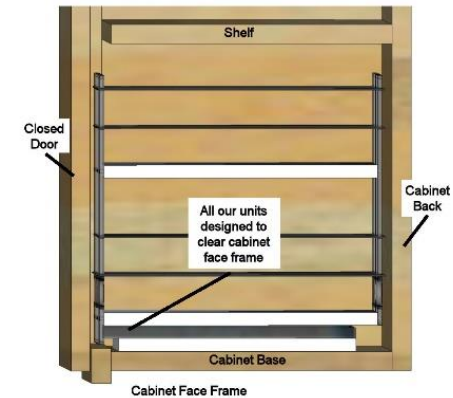

HEIGHT

Measure height from the cabinet base or shelf to the shelf above.

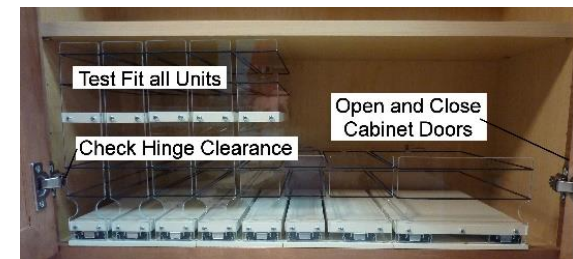

Units can be placed on shelves. The shelves must be fixed in place to keep the shelf and contents from tipping when a drawer is pulled out.

- The **Drawer Widths** available are 2.10", 3.25", 4.40", 5.55" and 6.70".
- Unit **Base Widths** available are 2.3", 3.45", 4.6", 5.75" and 6.9".
- Four different **Depths**: 10.6" (standard cabinets), 13.8" (IKEA depth), 18" (bathroom Vanities), 22.1" (base cabinets)
- Units come with one, two or three drawers side by side.
- Drawers are available single, double or triple tiered.
- A unit can stand alone or multiple units can be placed directly next to each other or spaced apart.
- Made for new, old or renovated cabinets.

**INSTALLATION (very simple and easy)**

- One Phillips screwdriver
- All units arrive fully assembled with Flex-Sides elastic bands and mounting screws.
- Units mount directly through the base into the shelf and can be positioned to fit your custom needs.
- The screws are self-tapping and will screw into almost all materials, except for stone, tile or metal. The screws extend through the base .375" (3/8"). The mounting screw should not protrude through the shelf.

- 1) Measure Your Space
- 2) Select a Depth to fit your cabinet. (if your space is 11.0" deep, choose x11 products, 10.6" deep units).
- 3) Select Units. The total base width of all the units you choose must be less than your cabinet width between the hinges.
- 4) Mix and match unit designs to meet your container storage needs
- 5) Material choice is a personal preference and size availability.

UNIT SELECTION HELP – www.VerticalSpice.com

We highly recommend a visit to our website.

Go to the “Self-Help” page.

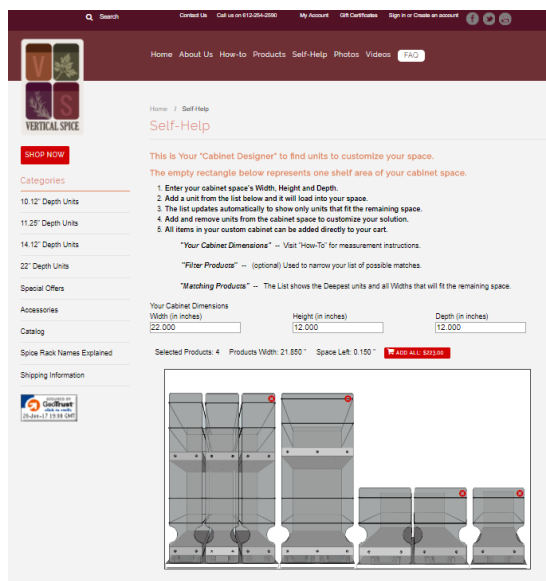

We call it our Cabinet Designer.

Enter your cabinet dimensions.

You will see a list of units that fit your space.

Select one and the list changes to only what fits your remaining space.

Select and remove units to customize your solution.

222 x 1.5 vs. 222 x 2

PRODUCT CHART – 10.6" Depth

page 8

WIDTH – One or more units when placed side-by-side must have a total Base Width less than your cabinet opening between the hinges.

DEPTH - This chart of products fits in a space at least 10.6" deep

Drawer length between the front and back plastic is 10.05"

HEIGHT - 10.75" unit requires 12" space for Standard Spice Jar

- 9.25" unit requires 9.5" space for 1/2 sized Spice Jar

- 5" unit requires 6" space for Standard Spice Jar

LOAD YOUR CONTAINERS – FLEXIBLE SIDES

- The Flex-Sides, flexible bands are what make the Vertical Spice Drawer Units unique and provide the great and easy access to spices.
- The bands are 2 mm in diameter with woven black polyester over a rubber core, crimped into a loop. Very similar to bungee cords or elastic hair bands (pony tail bands).

PRODUCT CHART – 22.1" Depth

page 10

WIDTH – One or more units when placed side-by-side must have a total Base Width less than your cabinet opening between the hinges.

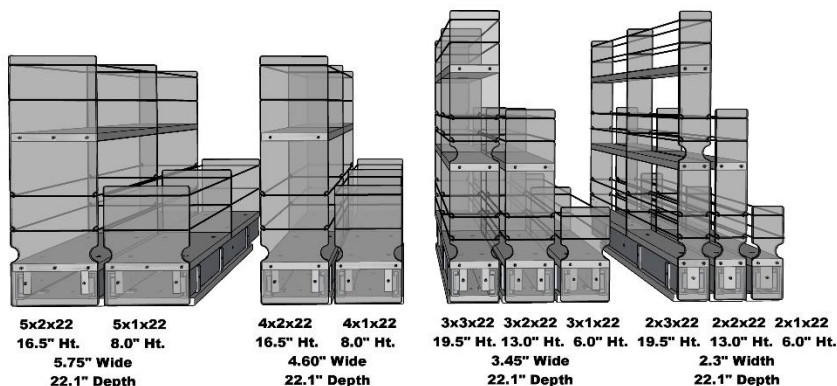

DEPTH - This chart of products fits in a space at least 22.10" deep

Each shelf has two 10.7" sections separated by a clear partition in the center.

HEIGHT – Depends on your stored container height on the top shelf

Access and Organize 24" Cabinet Spaces

SPICE RACK NAMES EXPLAINED

page 11

Products all named by WIDTH x HEIGHT x DEPTH and material type

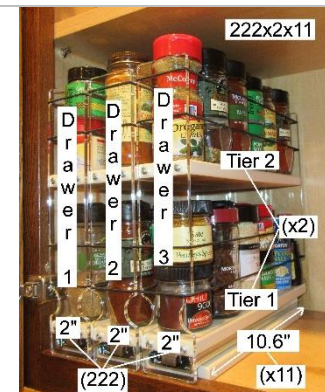

222x2x11 DC

222x2x11 means this Cream unit = (222) three 2.1" wide drawers (x2) each drawer two full tiers tall (x11) 10.6" deep

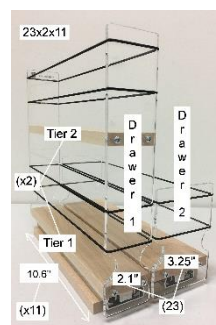

33x1x11 Cream

33x1x11 means this Maple unit = (33) two 3.25" wide drawers (x1) each drawer one tier tall (x11) 10.6" deep

4x2x11 DC

4x2x11 means this Cream unit = (4) one 4.25" wide drawer (x2) drawer is two full tiers tall (x11) 10.6" deep

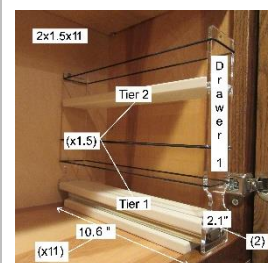

23x2x11 Maple (odd duck, only 2 shelf is 2 tiers)

23x2x11 means this Maple unit = (23) one 2.1" wide drawer and one 3.25" wide drawer (x2) 2.1" drawer is two full tiers tall (x11) 10.6" deep

2x3x22 Maple

2x3x22 means this Maple unit = (2) one 2.1" wide drawer (x3) 2.1" drawer is three full tiers tall (x22) 22.10" deep

2x1.5x11 DC

2x1.5x11 means this Cream unit = (2) one 2.1" wide drawer (x1.5) drawer has a second half tier (x11) 10.6" deep

HOW TO ORDER

page 12

Internet: www.VerticalSpice.com

Our website has a lot of information and design tools to help you select your unit(s). When ready, load your cart and securely check-out.

Phone: 612-254-2590

We are available to answer your questions, give assistance and take orders.

When placing an order we will need:

Unit name(s) and quantity(s) (format = "222x2x11DC" or "222x2x11Maple")

Billing name and address

Shipping name and address (if different)

Credit card information (All major credit cards accepted)

SHIPPING

We maintain an inventory of Finished Goods and are ready to ship within one day of receiving your order.

Our products are quality made and heavy. The packaging is robust to protect them during their travel. We work together with UPS Ground to ensure your delivery is timely and safe. The shipping and handling price reflects the actual costs and includes volume cost reductions to you that we have earned at UPS.

Alaskan and Hawaiian Orders - We ship by UPS Ground.

Canada - We have shipped from BC to Newfoundland and up to the Northwest Territories. We use UPS Ground. VAT, Provincial tax and entry fees for Canadian orders are included in the quote. Delivery times to Canada are 3-10 business days depending upon location

World – We have shipped to many locations, Europe, Asia, Australia, Africa and South America. We ship partially assembled to reduce costs. Contact us for a delivery quote.

RETURNS and WARRANTY

Return Process - If, for any reason, you are not 100% satisfied with your selection, please return it within 30 days.

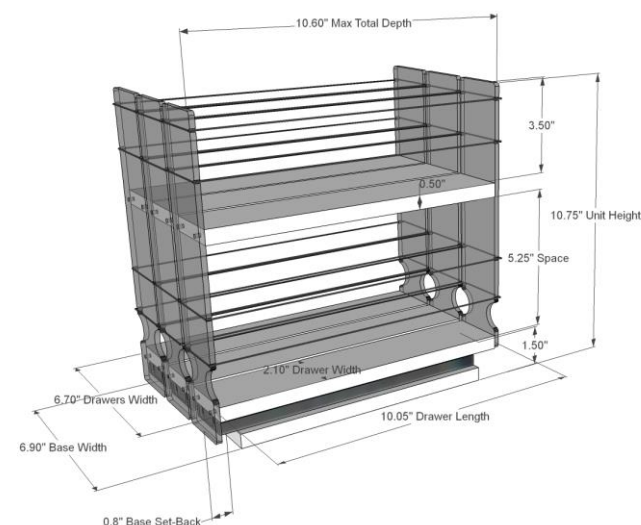

- The returns must be unaltered and undamaged by use and contain all original packaging.
- Returns must be in the original retail box, placed into a shipping box.
- There is a \$20 re-stocking fee per unit if returned damaged or incomplete.
- We will refund the purchase price or exchange it, whichever you prefer.

Warranty - Vertical Spice ("Seller") warrants to the original purchaser, that all Vertical Spice Drawer Units will be free from defects in material or workmanship for a period of **one year from date of purchase**.

FREQUENTLY ASKED QUESTIONS

page 14

Cabinet Face Frame?

We build our standard models with a cutout for clearance over the face frame. The cutout is for clearance only, the mounting screws are what hold the unit in place.

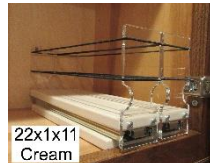

Cleaning And Maintenance?

Shelves and Plastic Fronts/Backs:

A soft rag and mild soap will clean-up spills or stains. Strong chemicals may cause cracking in the plastic.

Ball Bearing Slides:

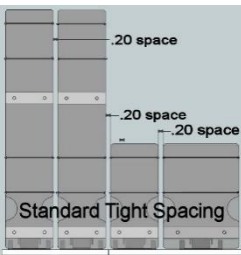

Add a little Petroleum Jelly to the moving and sliding parts if over time the slide movement is not as smooth.

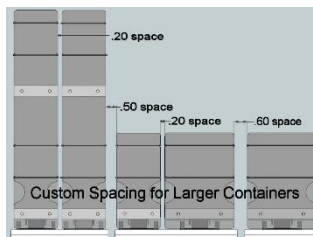

Containers Too Wide For Drawer?

Our drawers come in widths of 2.10" - 3.25" - 4.40" - 5.55" - 6.70". If what you plan to store is larger than the drawer width, the flexible sides and drawer spacing could still work for you.

Space between drawers is 0.2" on units with multiple drawers, or when the units are installed tight together.

During installation you can space the different units to give you extra drawer width space. When your larger containers are on a drawer, they can over hang the side and the elastic side bands will keep them in place and your spacing will give them the room to move.

Material Differences?

Maple – Solid maple processed in northern Minnesota. We apply a clear varnish to show off the woods character and make for easy cleaning.

Cream – Poly Tuf HDPE. Made from recycled milk cartons. This material is on mega-steroids. Very tough, lightweight, durable and easy to clean.

Where To Mount Units?

Each unit base MUST be attached to the cabinet/pantry bottom or a permanently fixed shelf with the included screws. Failure to attach will result in the Drawer and its contents tipping and falling out when extended.

If mounted to a movable/adjustable shelf, you MUST first secure that shelf to the cabinet side to make it permanent. Home improvement stores carry shelf clips that lock a shelf in place or D.I.Y. with blocks of wood or brackets (not-included).

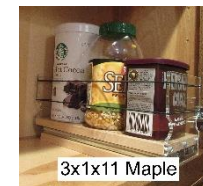

Units can be attached to wire shelves. There are mounting holes through the bases that zip-ties can be passed through or screws/bolts can be attached to a block of wood underneath the shelf. The bases are easily drilled to give you more access holes. It is very important to make sure the wire shelves will not tip forward when the weight of the drawers are pulled open.

WHAT OUR CUSTOMERS SAY

Just wanted to say that the spice racks we ordered exceeded our expectations. The installation was very easy and the slides work great. We will be ordering more spice racks in the near future. Amazing how much space the vertical spice racks have freed up.

JW From Fort Worth, TX

I am a cooking fanatic, but spices in my cabinets were a total mess. My husband found vertical spice for me and ordered two. I was pleased with those and ordered 4 more. If you need "spice space" - this is indeed the best product you can find. Thanks much vertical spice!! TONYA

Vertical spice folks....

I have to say that I am more than pleased with your shelving solution! It took me less than 4 minutes to completely install two units. (it took me longer to remove the shelves from the meticulously packed box!)

The shelving is sturdy, the sliding mechanism is very smooth and everything feels like it is great quality. It has really maximized my space and solved the problem of my cluttered spice cabinet. I appreciate your product and your great service.

JT FROM KANSAS CITY, KS

Everyone who sees it wants one!

KR FROM ALABAMA

Just a note to follow up to tell you how much I love my spice racks. The craftsmanship and functionality can't be beat!

Thank you, CR FROM ELMHURST, IL

This simple, super easy to install item has changed my life! I baked cookies as soon as I had them all installed and it cut my prep time in half because it was so easy to find and put my fingers on every single item I needed. Thank you so much! CG FROM LOUISIANA

This is my third time purchasing. I keep finding more uses for them. I love being able to see everything so well organized.

We received the spice racks yesterday, thank you. It took longer to unpack the boxes than it did to setup the racks :) wow, what a difference! You guys have a nice product, thanks a bunch...

KY FROM ATHABASCA, AB, CANADA
